

About Us

In business for over 20 years, Olympic Fire Services is a locally owned and operated business with many earned recognitions to support and validate our passion for everything Fire Safety. We live, breathe and love the Fire Safety Industry and would be honoured to be your preferred Fire Safety partner. We understand the rules, regulations, standards, codes and all the other boring bits, we are also licenced, accredited, qualified and ticketed to do your fire inspections, testing, and all legislated paperwork.

Let us make your fire safety simple and hassle free. We will explain exactly what you need to know in simple, easy to understand words.

Mission Statement

To ensure our customers have what they need to make their business compliant - from fire safety installations to on-going service needs. Our experienced, accredited reliable staff are dedicated to assisting other companies to protect their assets from the effects of fire, setting your business up so that everyone can work in a safe environment. We promise maximum efficiency, reliability and outstanding personalised service, giving our customers the assurance that we will be there when they need us always.

Core Values

Our values embody the spirit of Olympic Fire Services. They reflect the energy of a company that wants to make a positive mark on the fire industry. We articulate a code of behaviour that guides us through that challenge by following the set of values below: -

Honesty. Reliability. Integrity. Communication. Professionalism.

Our Services include:

- 24 hours, 7 days a week, 365 days a year on call availability for our customers
- Design/Installation/Certification & Maintenance of:
 - Portable Fire Fighting Equipment
 - Hydrant and Sprinkler Systems
 - Fire Detection and Warning Systems
 - Passive Fire Systems
 - Sprinkler and Hydrant Pumpsets
- First Response and Evacuation Instruction
- Fire and Evacuation Plans
- Evacuation Signs and Diagrams
- Backflow prevention valve testing and repair
- Electrical equipment Test and Tag

"We love what we do, and it shows in how we do it."

Fire Protection Maintenance Software

We invested in Firemate because it is the only electronic management system specifically built for the Australian and New Zealand Fire Protection Industry. This ensures the highest standard of customer service is provided and all maintenance recording is seamless for our customers. Be assured you are working with a company that is efficient, proactive, professional and on time.

With our software, we can completely control our administration whilst out on site, meaning we can identify risks, note any asset damage and report on job completion while still on site. Firemate allows us to master all compliance issues and provide unrivalled customer service levels, by utilising the very latest in systems technology to automate our workflow from order to invoice. It also streamlines our operation and ensures your reports are issued in a timely manner.

We log all aspects of each job as they happen. We simply take photos of any defects and issues on site, then upload them to the program for complete access. This also allows us to list all your fire equipment assets and schedule routine maintenance appointments on the spot.

Why choose Olympic Fire Services:

- Automated compliance generates regular accurate reports
- Exceptional customer service with streamlined administration and client management
- Fast and accurate quotes

"Firemate provides efficient, accurate, onsite updates"

You can contact us without obligation to request a quote or discuss your requirements and needs. We are happy to be of service in getting you compliant and in a position to fully protect your property and its occupants.
